NEW PERSPECTIVE ON A BETTER GROUND

Founded in 2015 as part of the ADO Group of Companies whose facilities spread over 610,000 square meters in total, ADO Floor launched production a year later in Turkey's only LVT & SPC manufacturing plant, operating in an indoor area of 25,000 square meters. Manufactured with the most advanced technology and techniques available in the field, ADO Floor products bring the naturalness of wood and the durability of Vinyl together, with ease of installation and use.

ADO
Floor

“ A very practical, medium-dark color wooden pattern that features nice brown and slightly red shades, with large streaks, slightly knotty and worn-out influence. ”

STILO

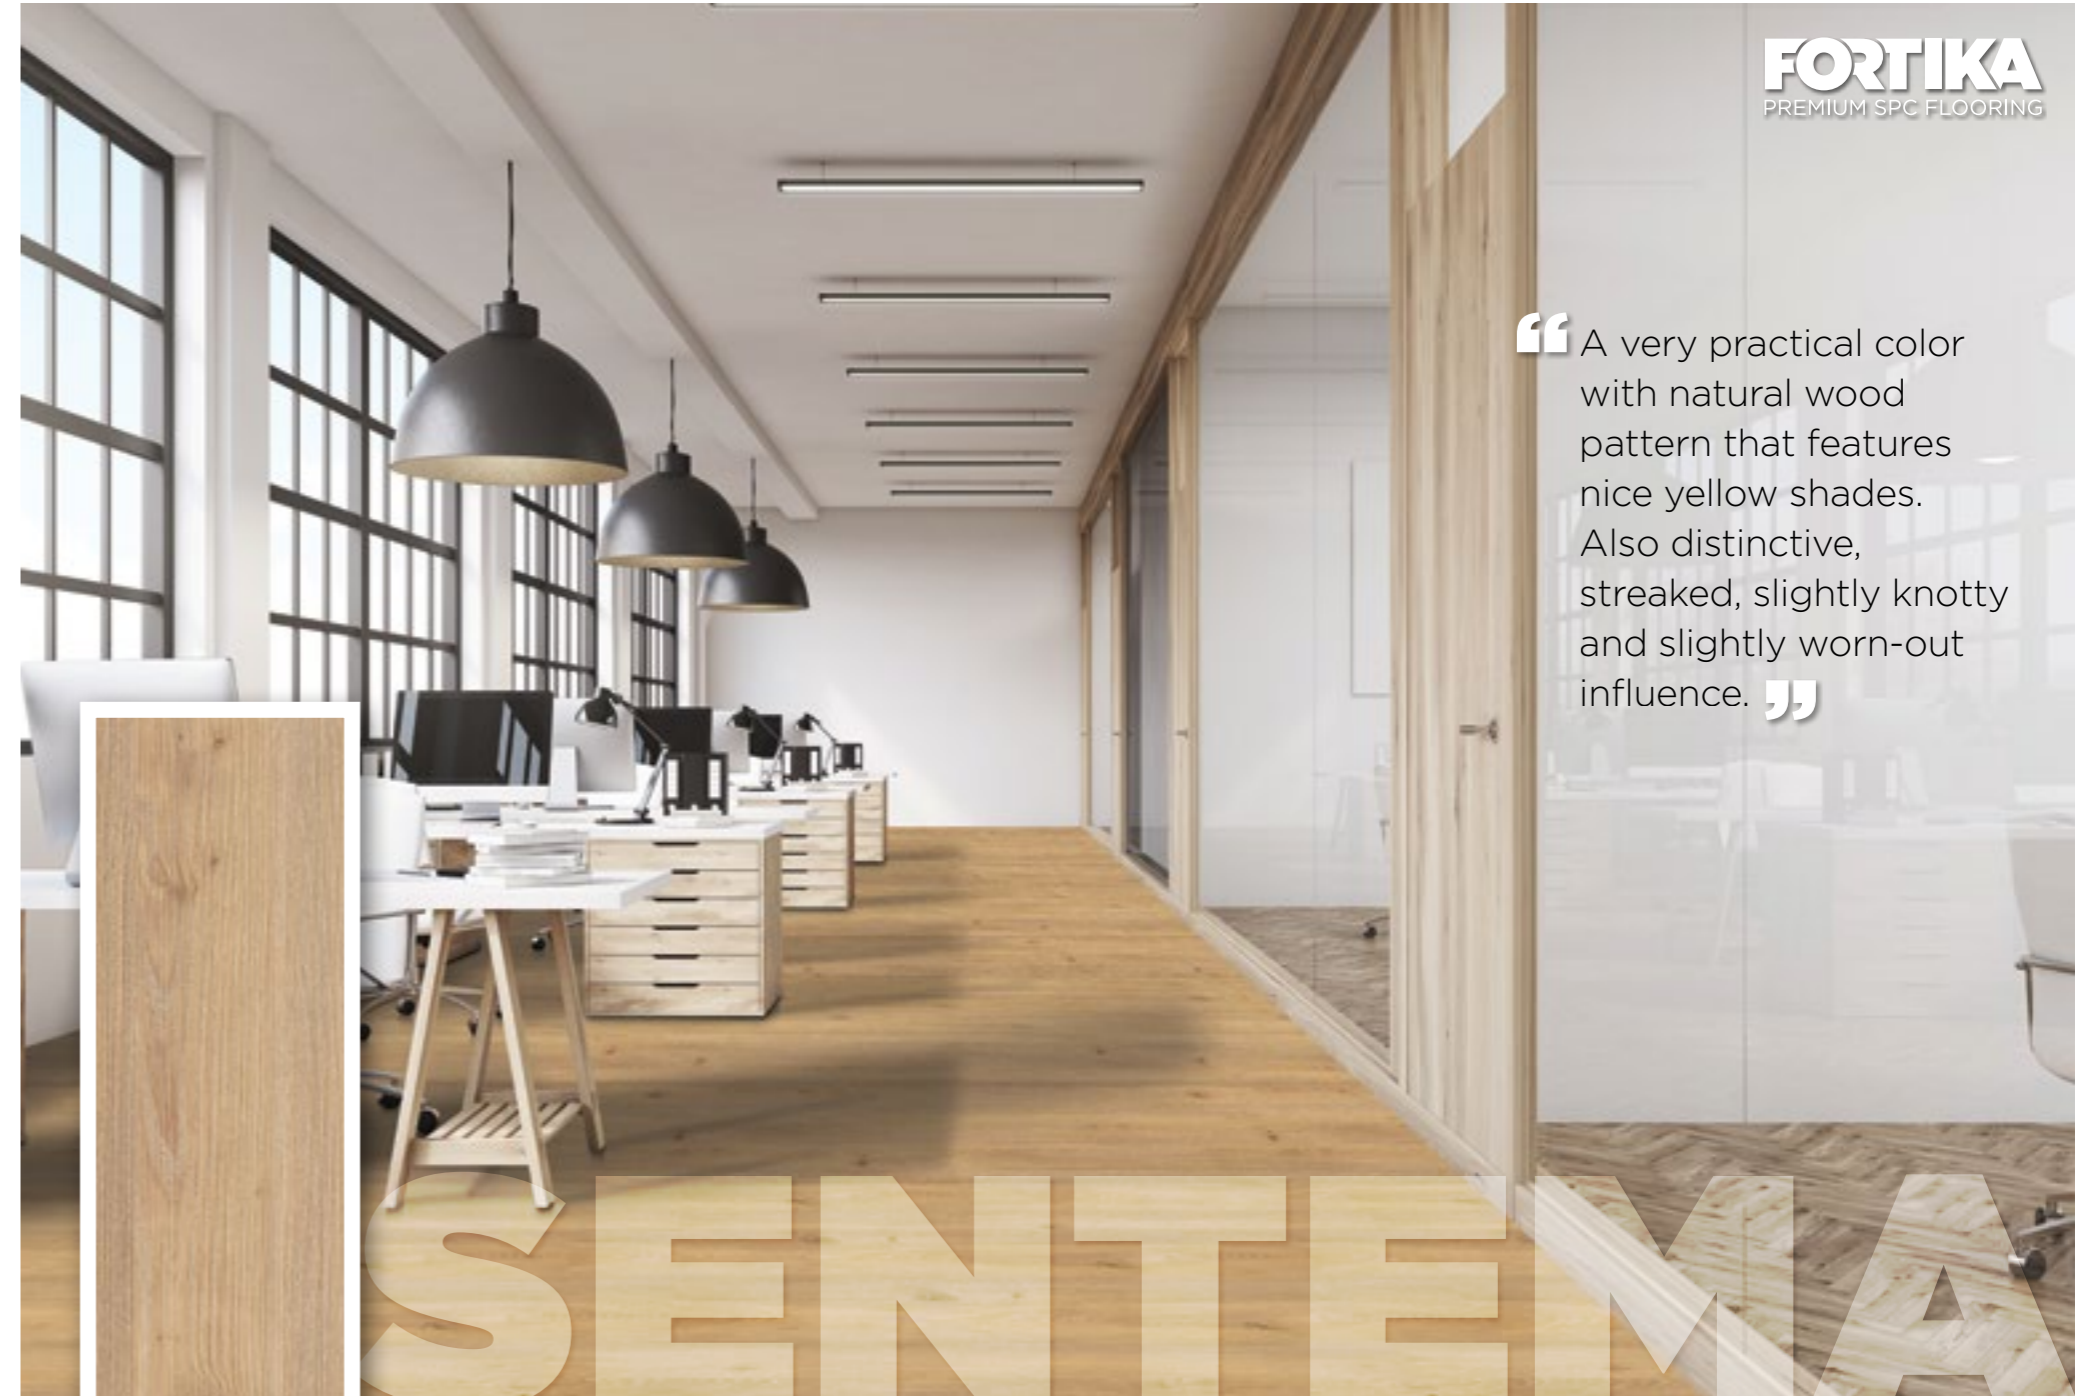

“ An excellent fusion of modern and classics! A multi-purpose, distinctive, large-streaked and big and slightly knotty wooden floor that creates a spacious atmosphere. Featuring bright-medium shades, slightly silver touches. ”

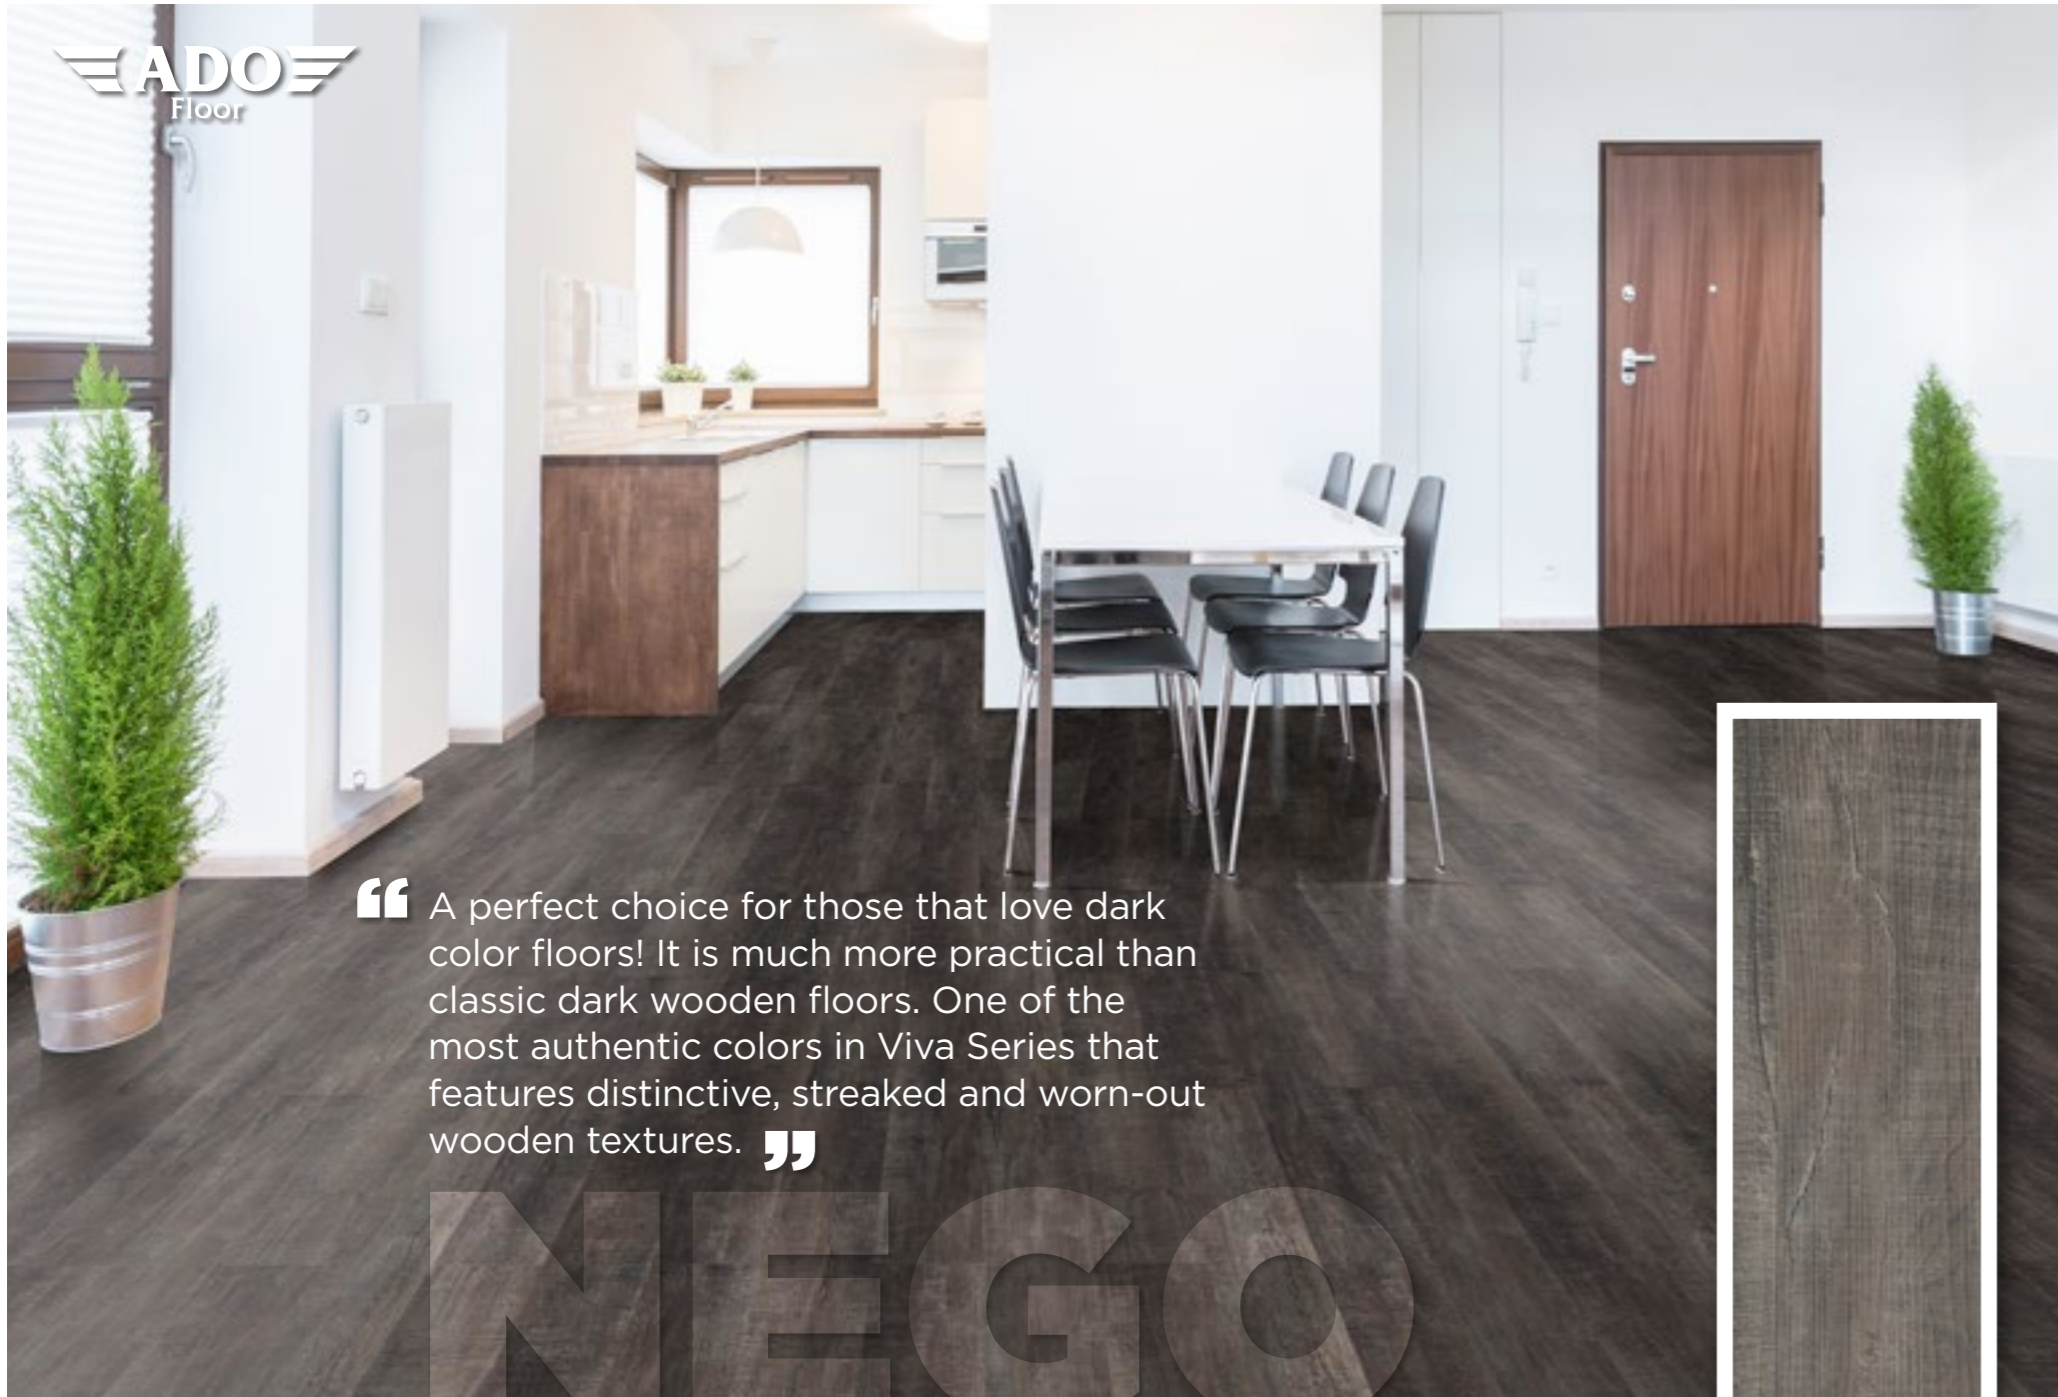

KLASIKA

“ A very practical, thin and distinctive streaked and slightly knotty floor color. Ensuring peace of mind and reflects the atmosphere of the ambient, with medium-dark, nice red and brown shades. ”

“ A very practical color with natural wood pattern that features nice yellow shades. Also distinctive, streaked, slightly knotty and slightly worn-out influence. ”

ADO
Floor

“ A perfect choice for those that love dark color floors! It is much more practical than classic dark wooden floors. One of the most authentic colors in Viva Series that features distinctive, streaked and worn-out wooden textures. ”

NEGO

FORTIKA
PREMIUM SPC FLOORING

“ A worn-out wooden pattern with high contrast between the parts. Featuring medium-dark brown and gray shades for a modern style. ”

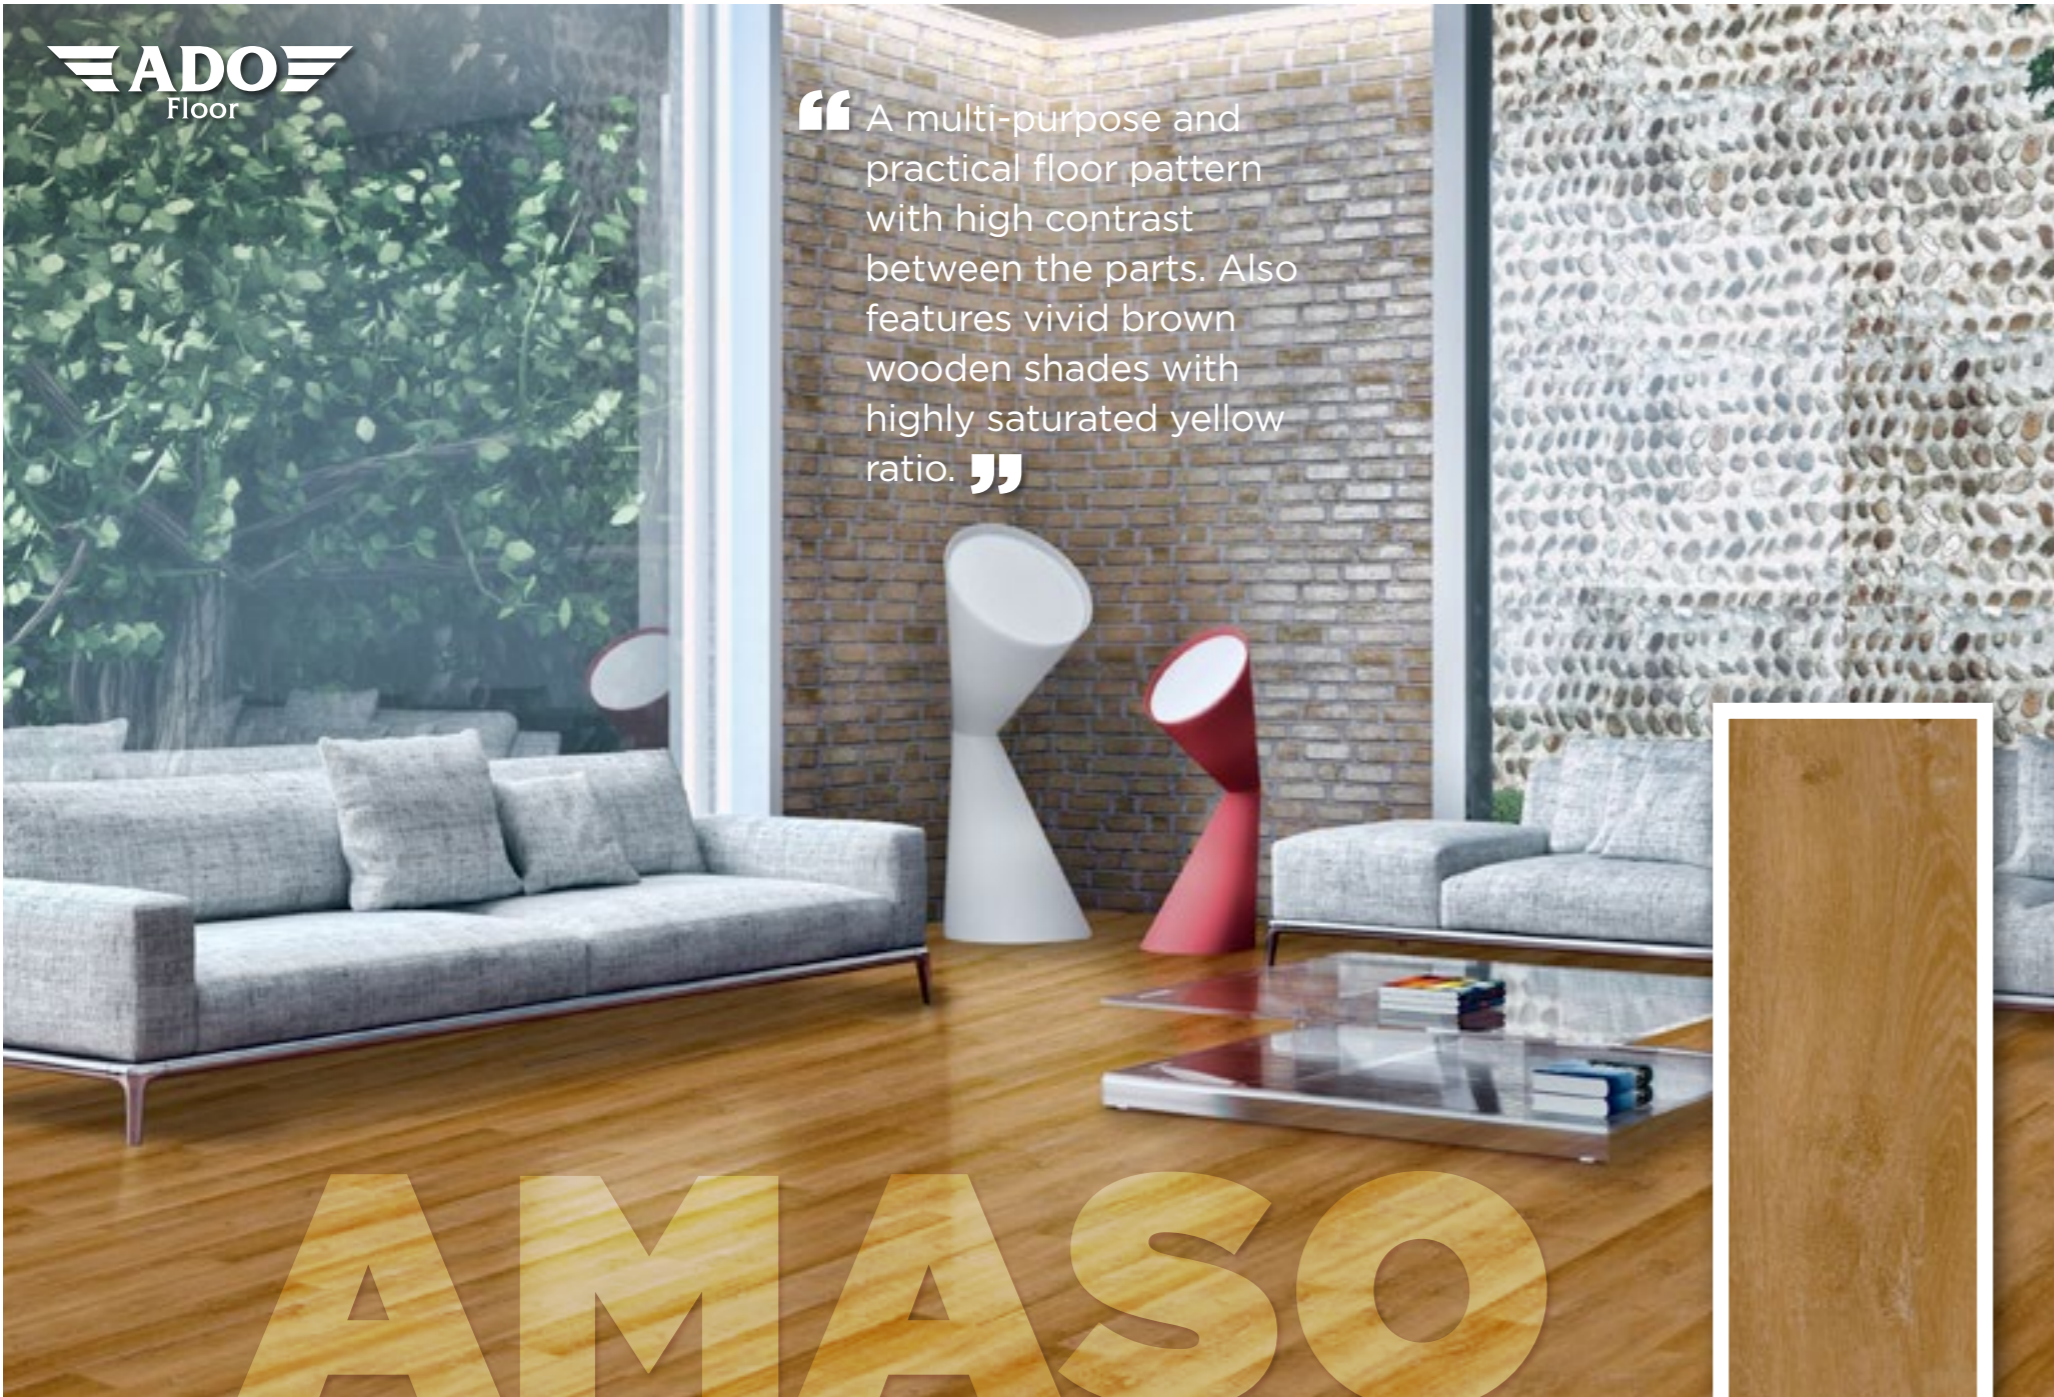

MORNA

“ One of the noblest colors in Viva series. A color that almost does not have any streaks and has high positive energy. Featuring large and slightly distinctive streaks. Combination of saturated yellow, orange and brown shades of wood. ”

NOBLA

“ One of the brightest colors in Viva series. A spacious choice that brings sincerity and tranquility to the environment. Without any knots and with slight creamy and gray colors, as well as large and slightly distinctive streaks. ”

SPERTA

ADO
Floor

“ A multi-purpose and practical floor pattern with high contrast between the parts. Also features vivid brown wooden shades with highly saturated yellow ratio. ”

AMASO

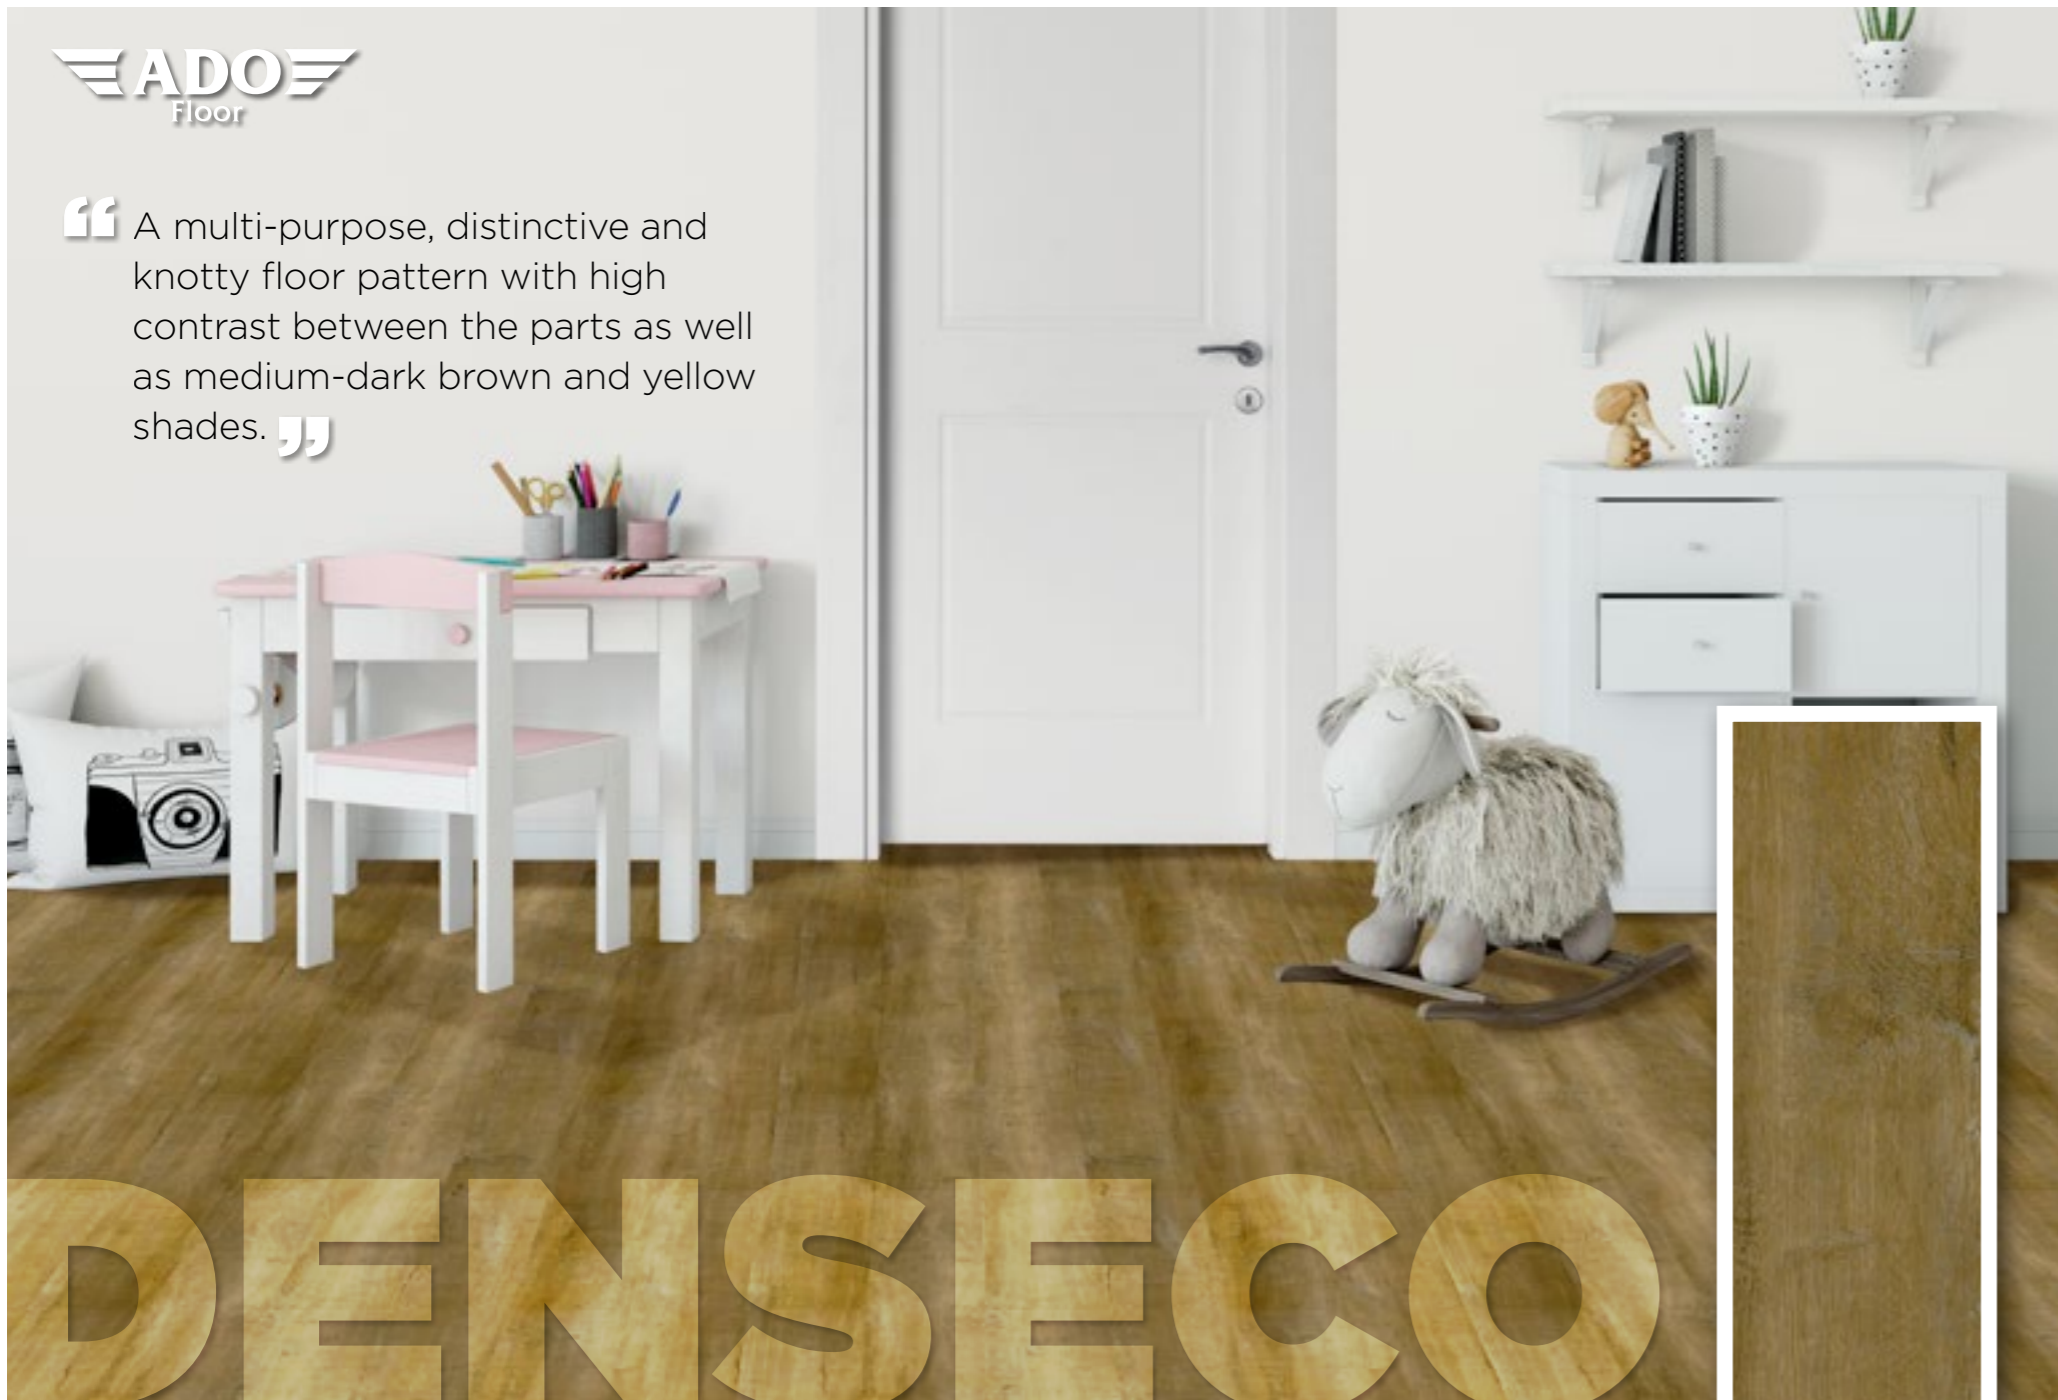

FORTIKA
PREMIUM SPC FLOORING

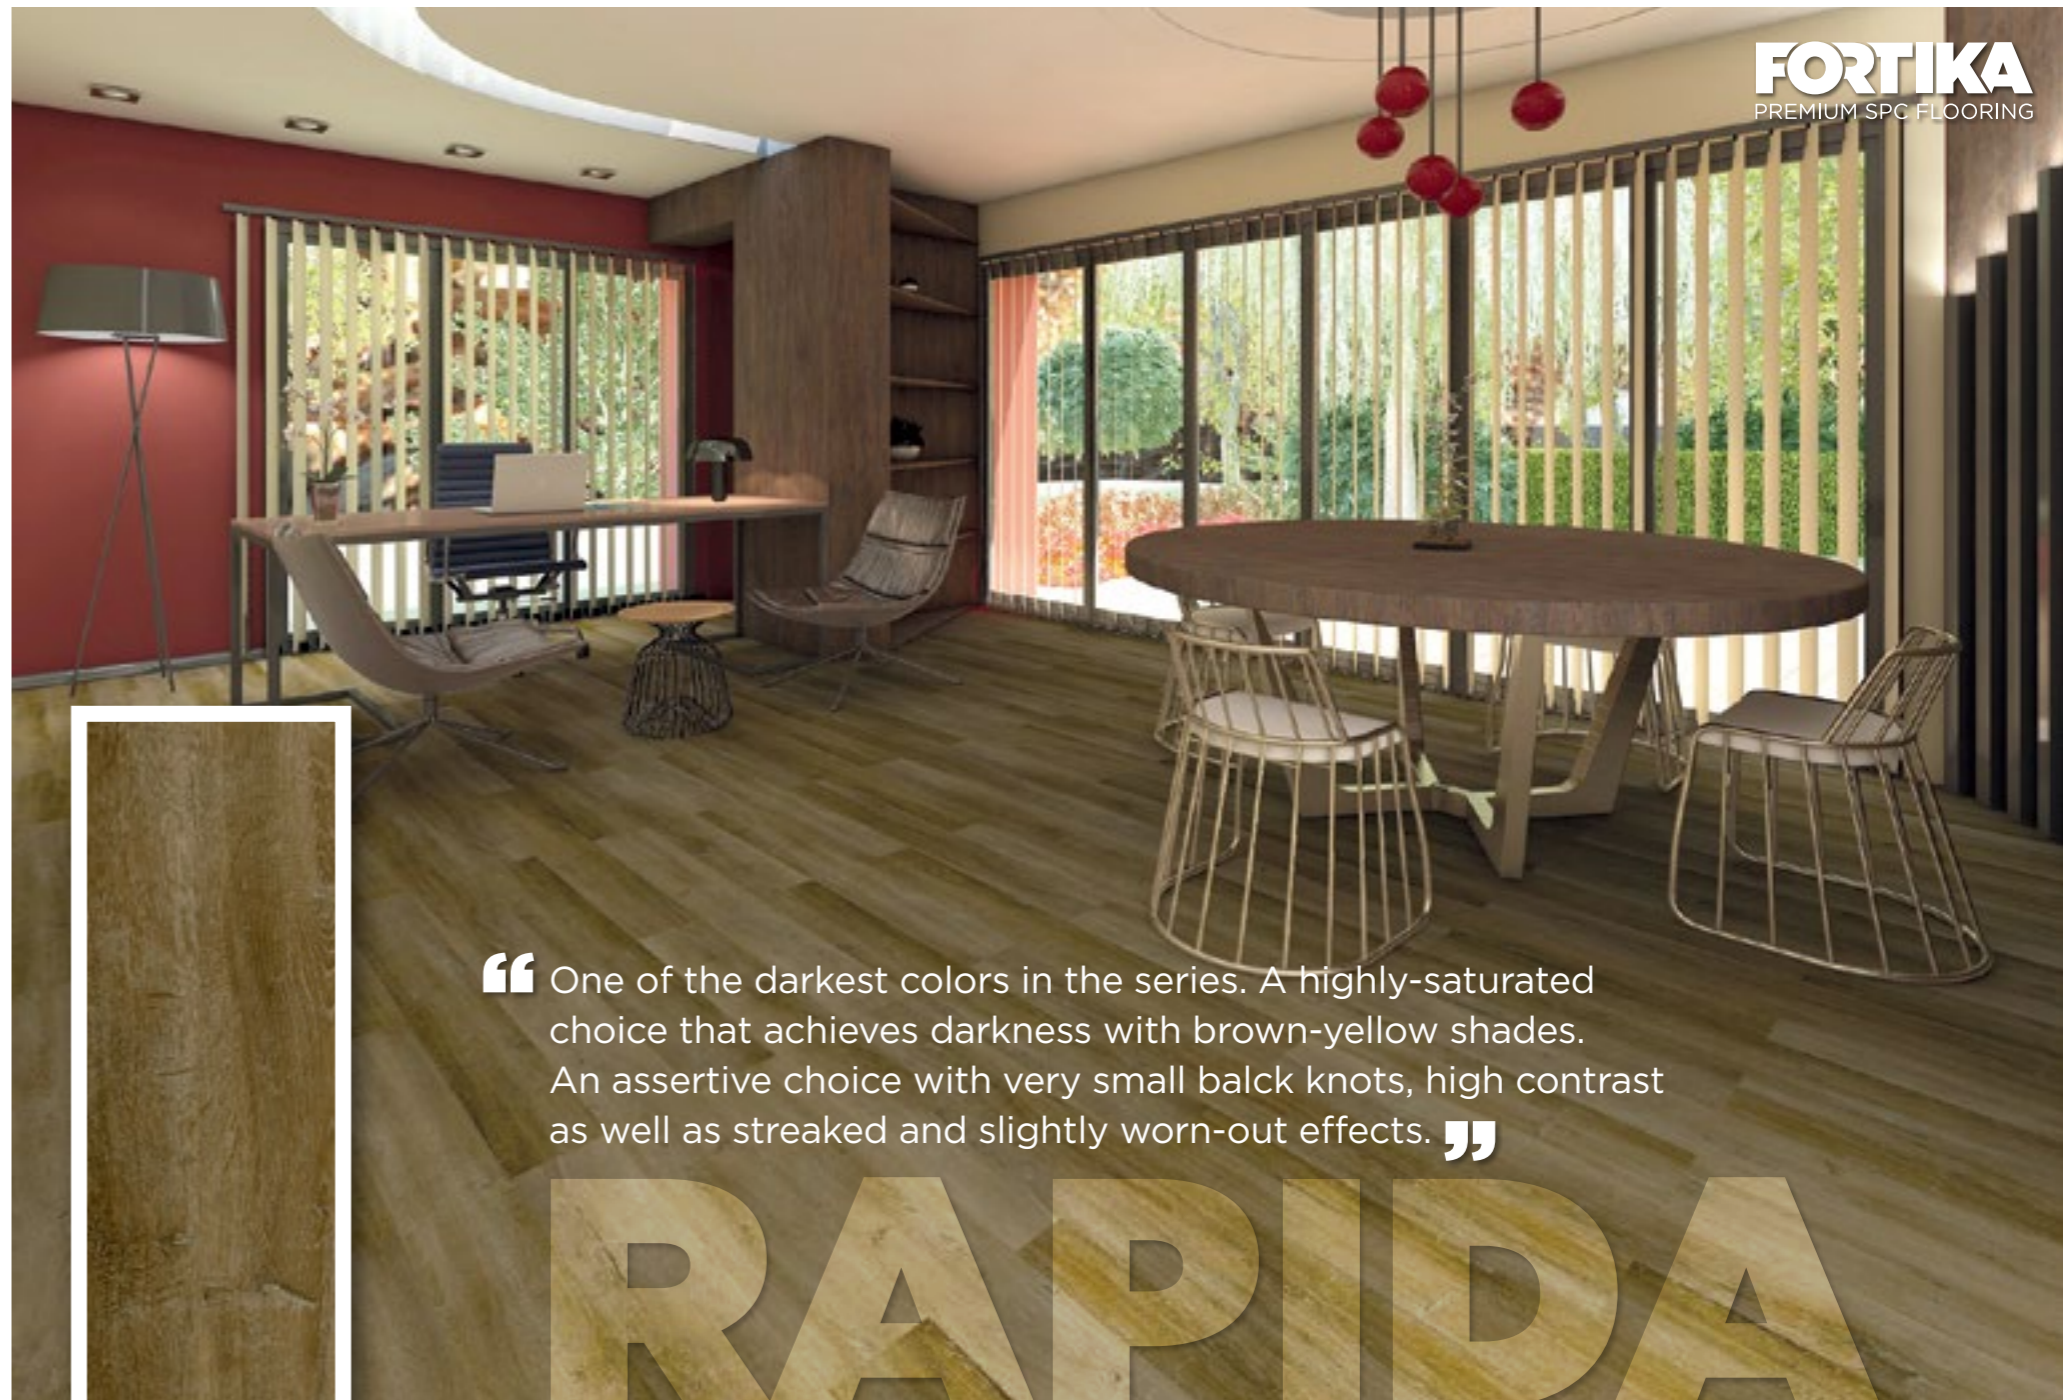

“ A perfect choice for those that love modern wooden floors! A charismatic floor color with medium darkness, very little knots, medium-level distinctive streaks and smooth brown and light red shades. ”

BONEGA

“ A multi-purpose, distinctive and knotty floor pattern with high contrast between the parts as well as medium-dark brown and yellow shades. ”

DENSECO

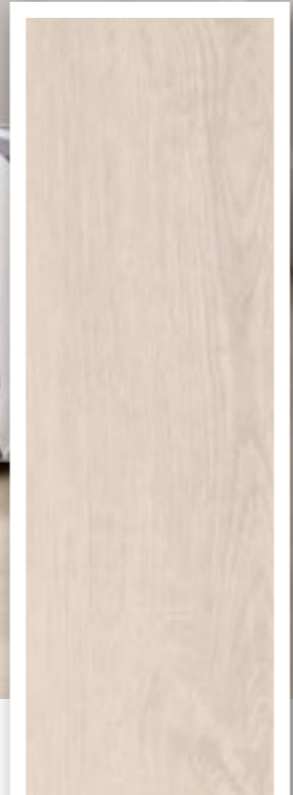

“ One of the darkest colors in the series. A highly-saturated choice that achieves darkness with brown-yellow shades. An assertive choice with very small black knots, high contrast as well as streaked and slightly worn-out effects. ”

RAPIDA

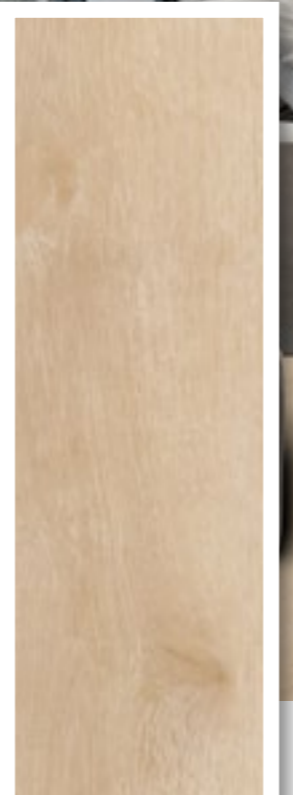

ADO
Floor

“ A special color with nice pink and creamy shades and small streaks and without any knots. A very practical choice with low contrast that combines sincerity and spaciousness. ”

“ A light color choice with nice creamy and yellow shades as well large knots and streaks. A spacious alternative that slightly warms the ambient and wall colors of the spaces where it is used. ”

FORTIKA
PREMIUM SPC FLOORING

GRUNDO

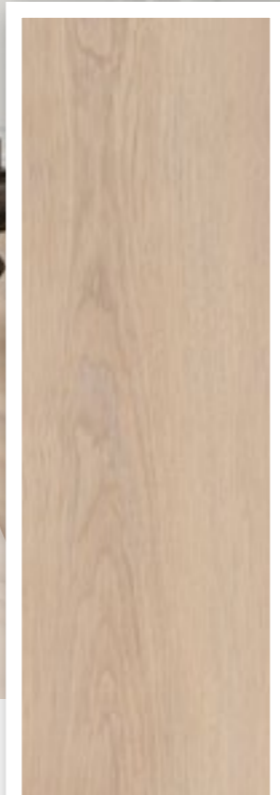

ADO
Floor

“ A wooden-textured floor with nice brown and red shades and slight pinks. An option with homogenous color dispersion, medium-size streaks and knots, with light to medium darkness. ”

ADMIRINDA

VIVA SERIES | 1403 • ADMIRINDA

FORTIKA
PREMIUM SPC FLOORING

“ Special wooden pattern that emphasizes naturalness and almost does not have any knots. Featuring medium darkness, large, distinctive streaks and visible shades of orange and yellow. ”

PLATANANO

1405 • PLATANANO | VIVA SERIES

ADO
Floor

“ A practical floor choice for those who prefer naturalness. Saturated yellow to brown shades between medium and large knots and thin, distinctive streaks. ”

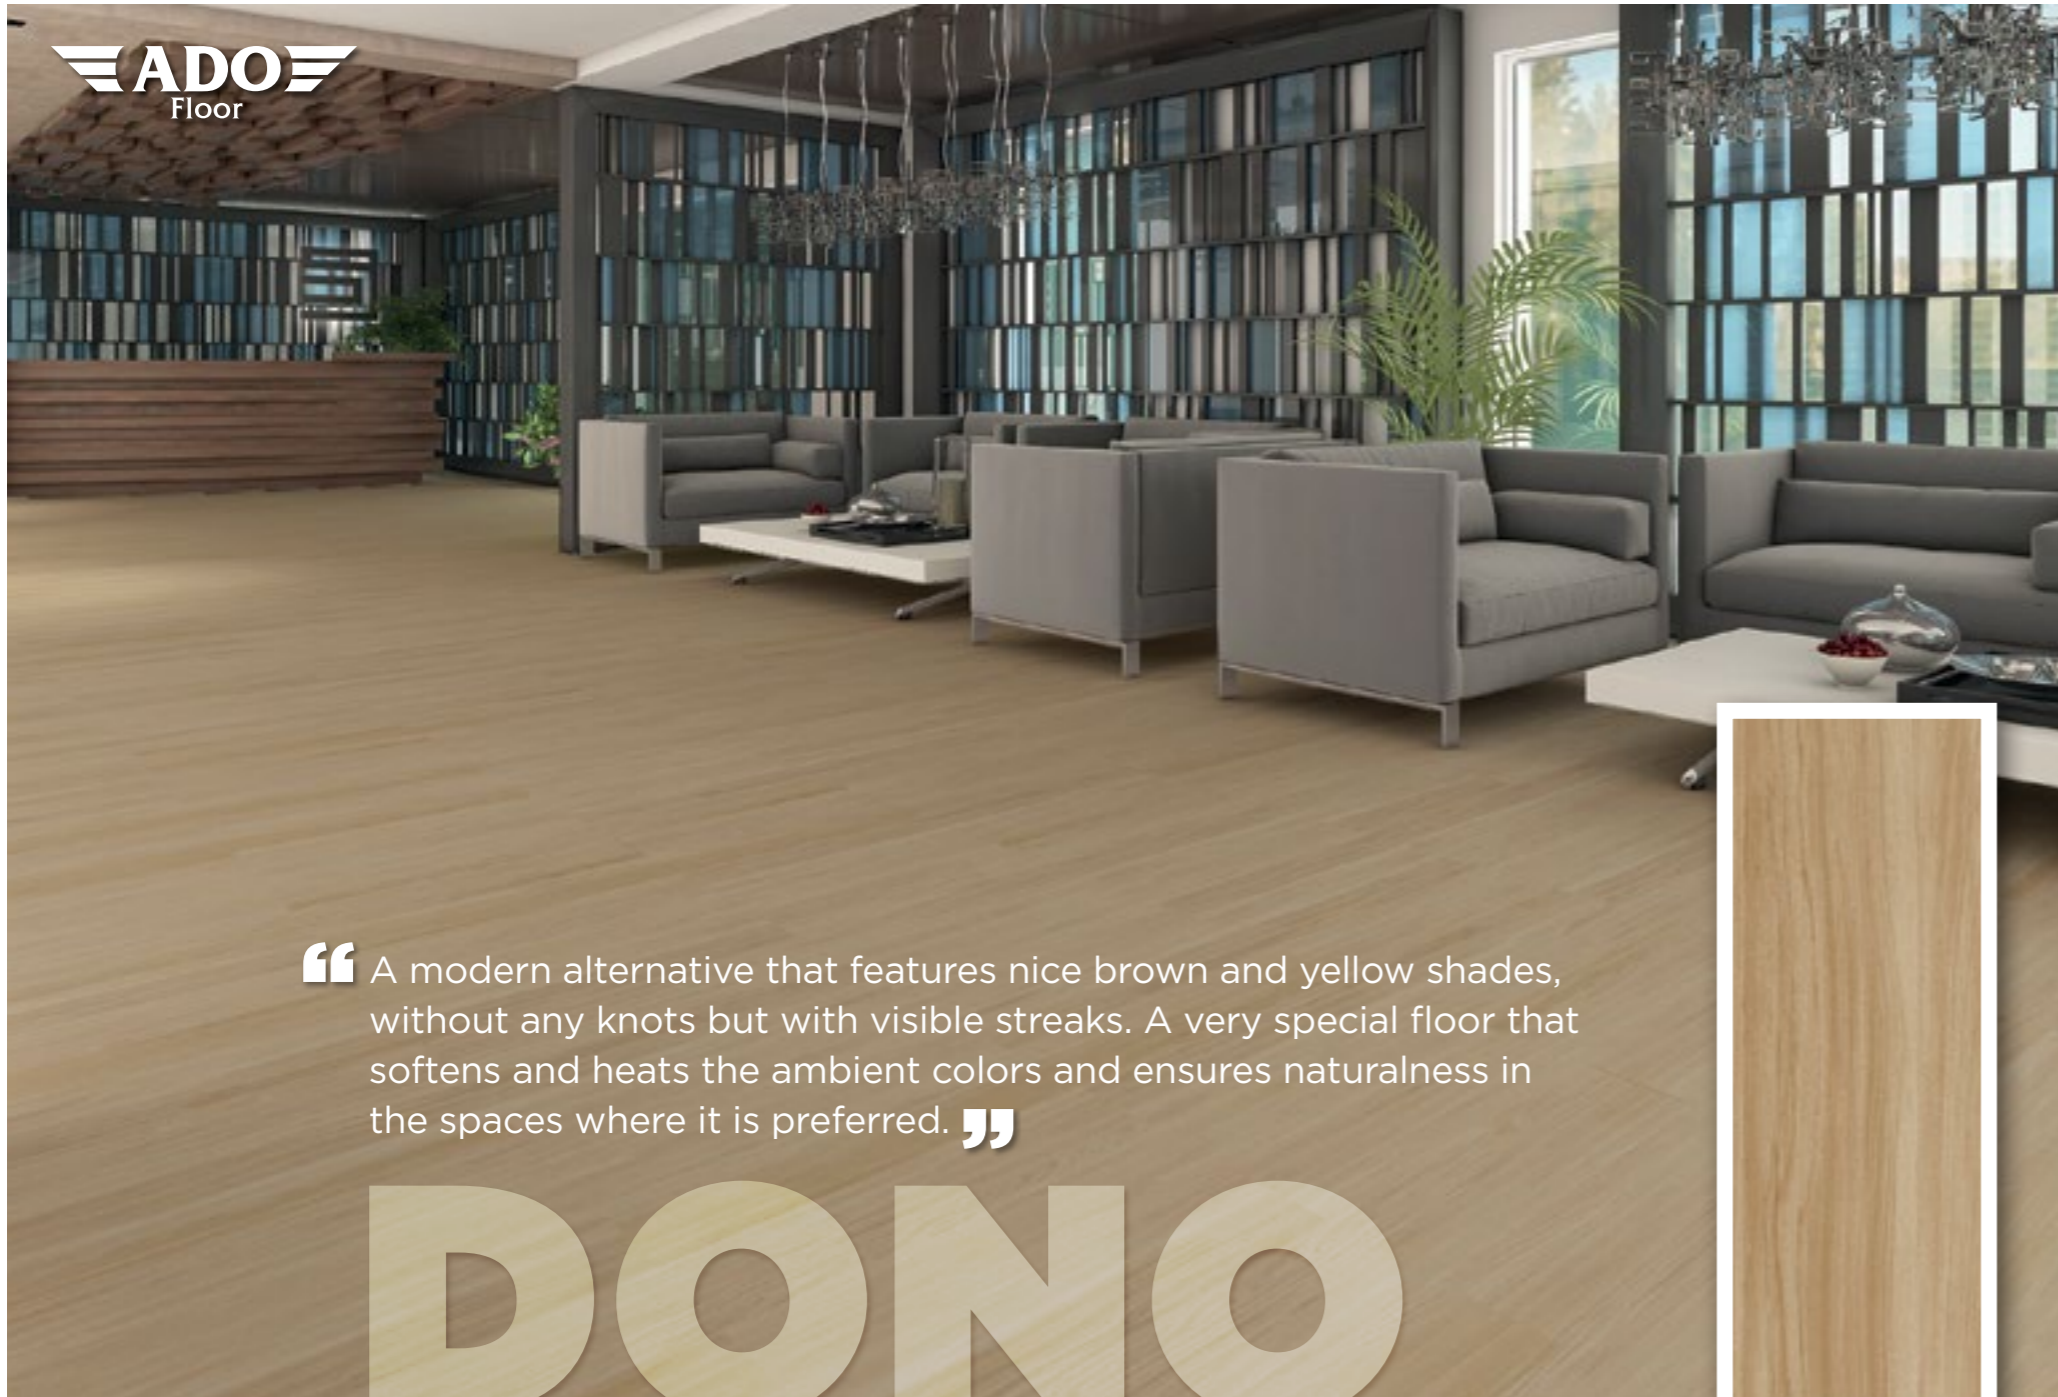

AKRA

FORTIKA
PREMIUM SPC FLOORING

“ Specially designed for those that love naturalness and modernity together. A very special and modern choice that ensures worn-out, natural wooden effect, thick and small knots and streaks, with a combination of yellow-orange and gray shades. ”

AMATO

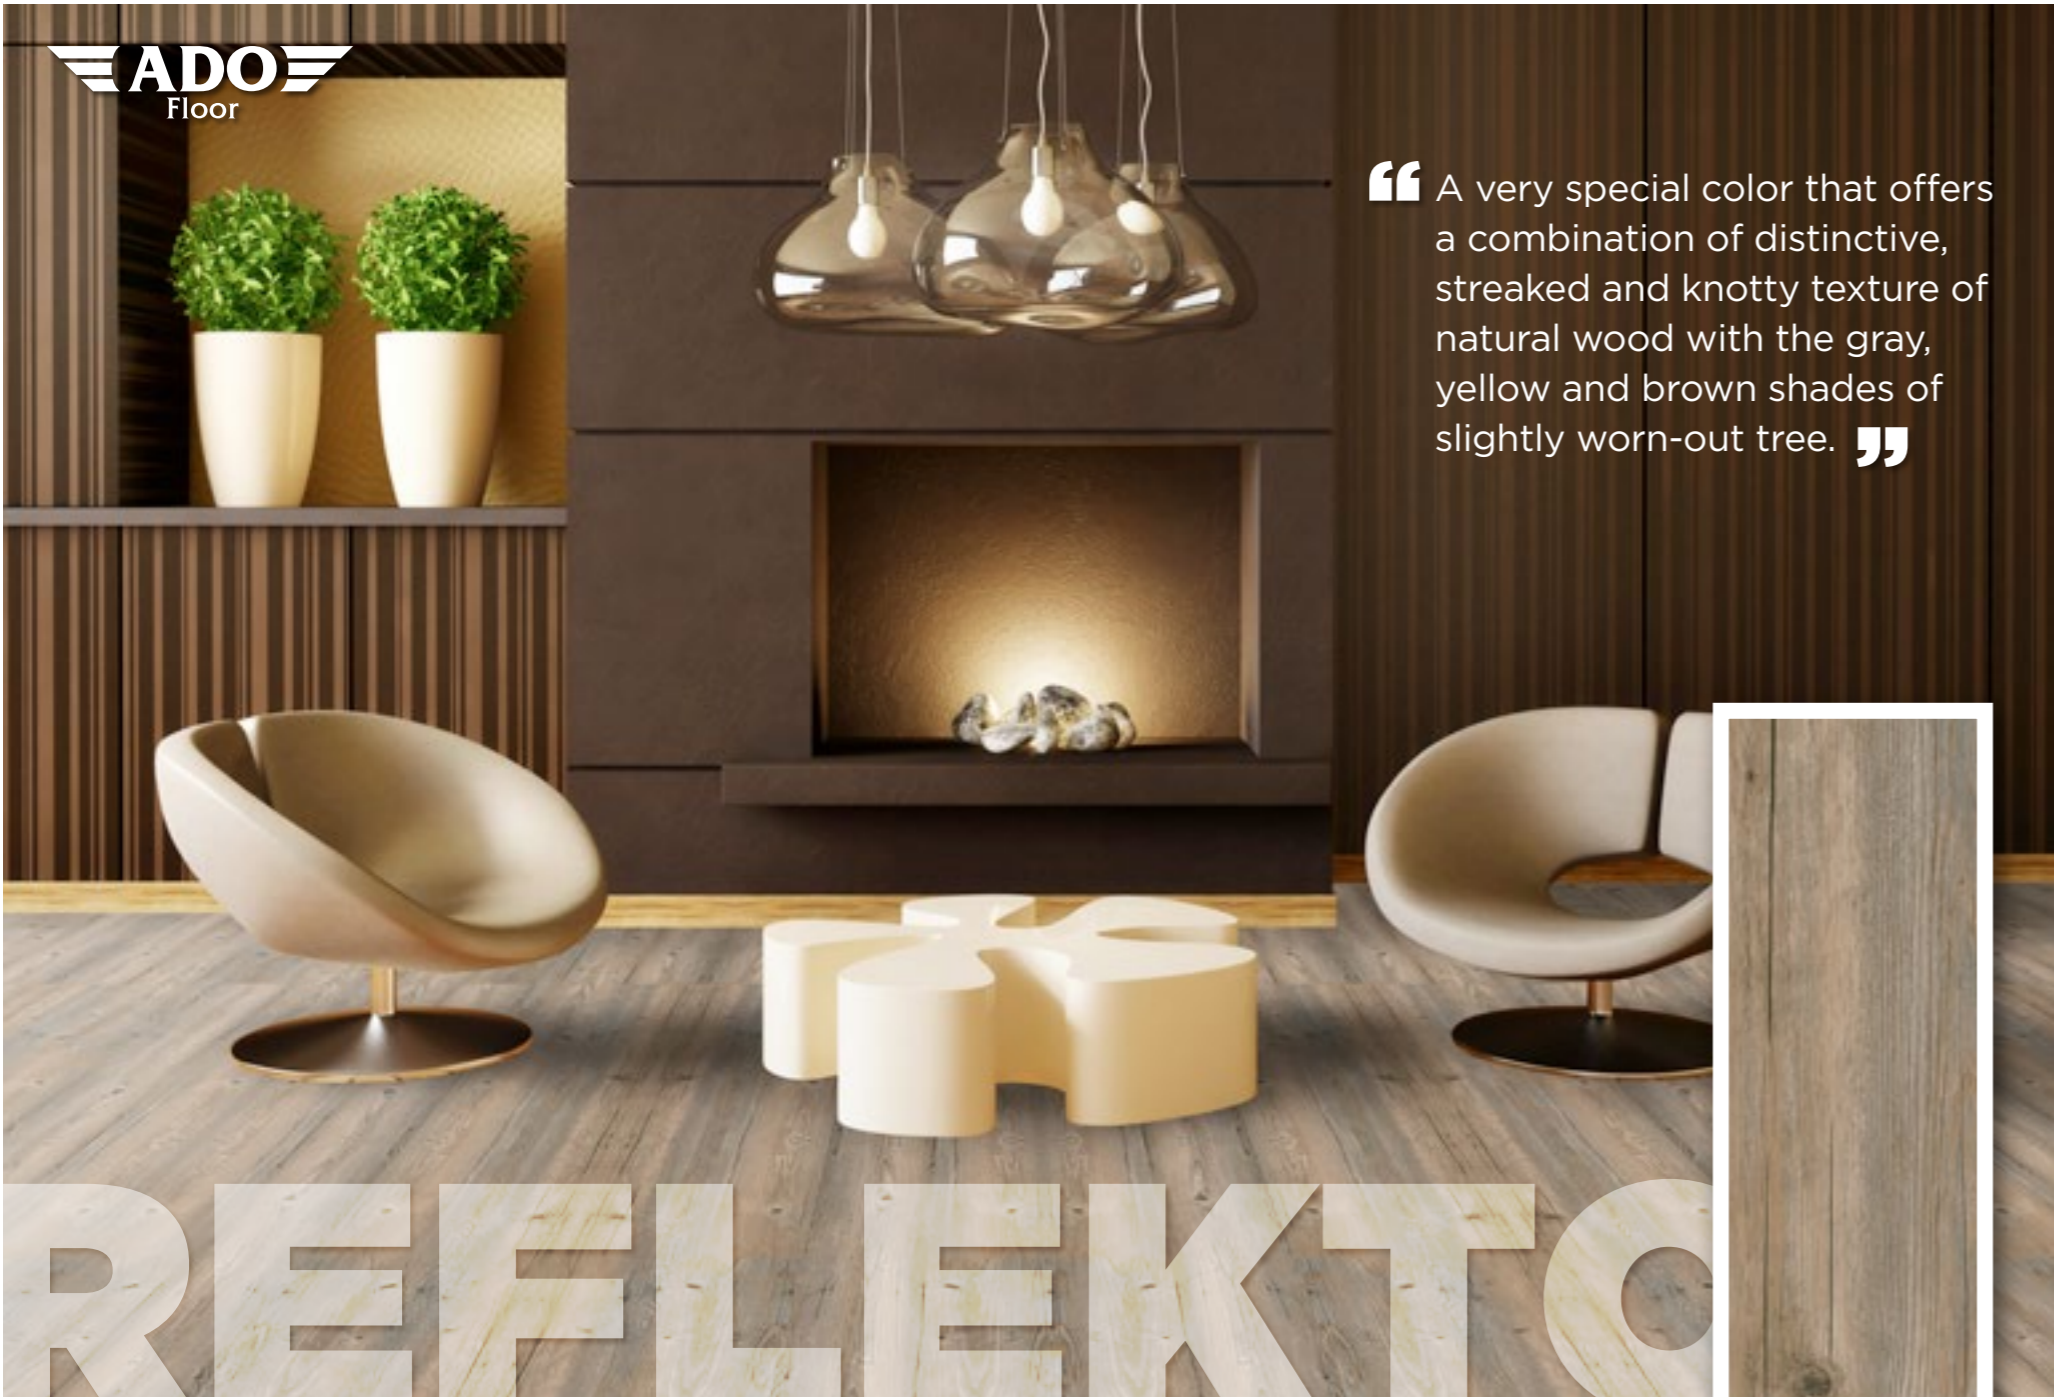

“ A modern alternative that features nice brown and yellow shades, without any knots but with visible streaks. A very special floor that softens and heats the ambient colors and ensures naturalness in the spaces where it is preferred. ”

DONO

“ The darkest color of Viva series. A distinctive and very large streaked design in dark gray shades. A special choice that can easily adapt to different ambient colors, also adds nobility and seriousness to the spaces where it is applied. ”

MALLUMO

ADO
Floor

“ A very special color that offers a combination of distinctive, streaked and knotty texture of natural wood with the gray, yellow and brown shades of slightly worn-out tree. ”

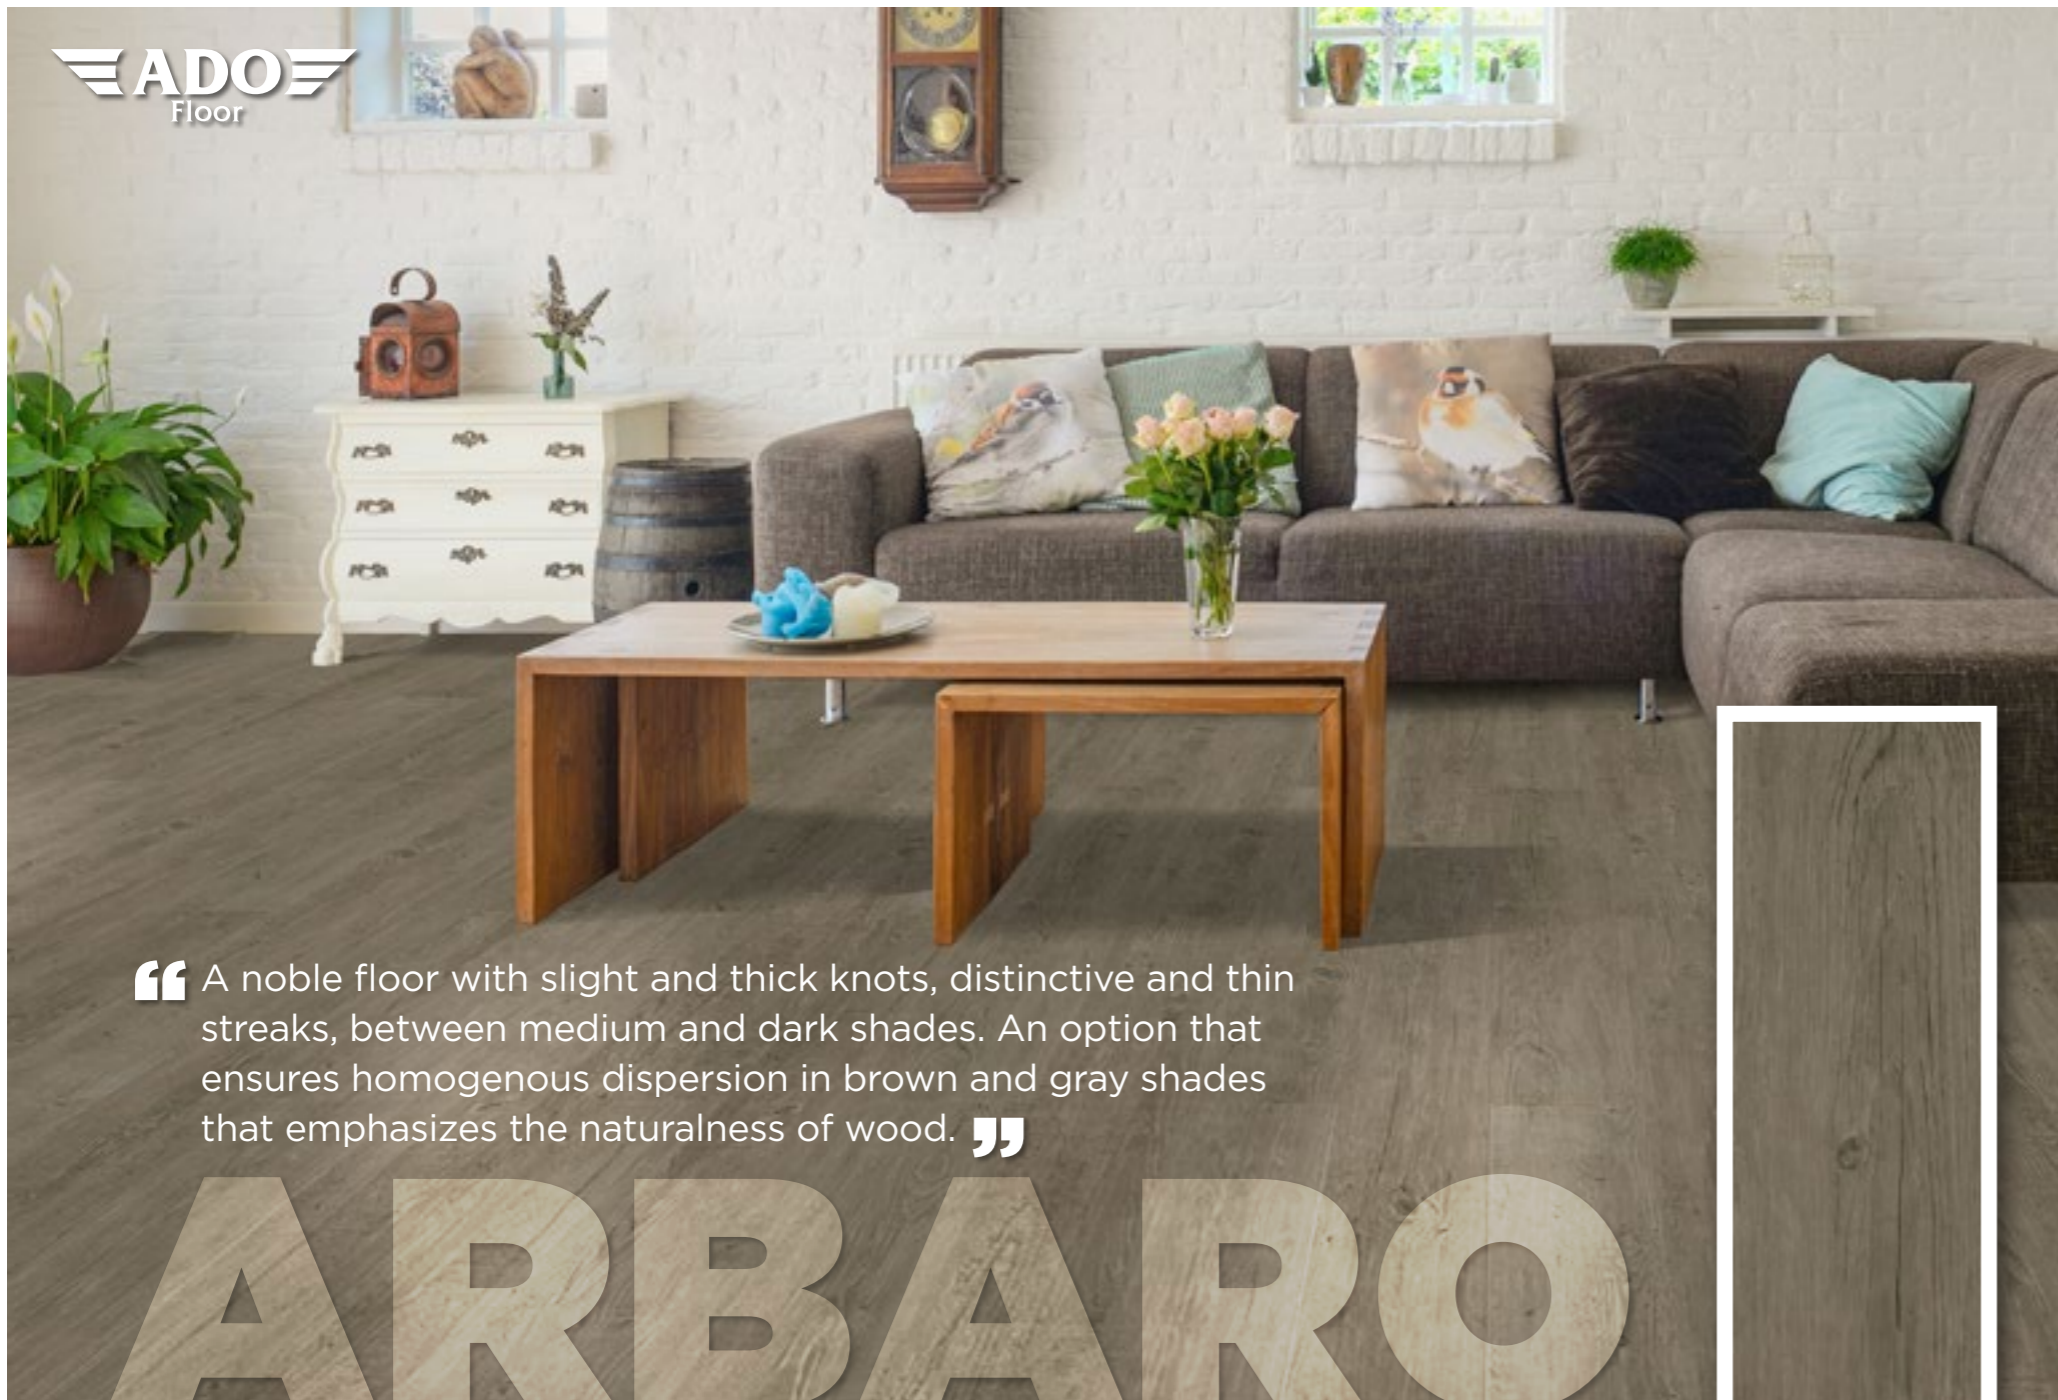

REFLEKTO

FORTIKA
PREMIUM SPC FLOORING

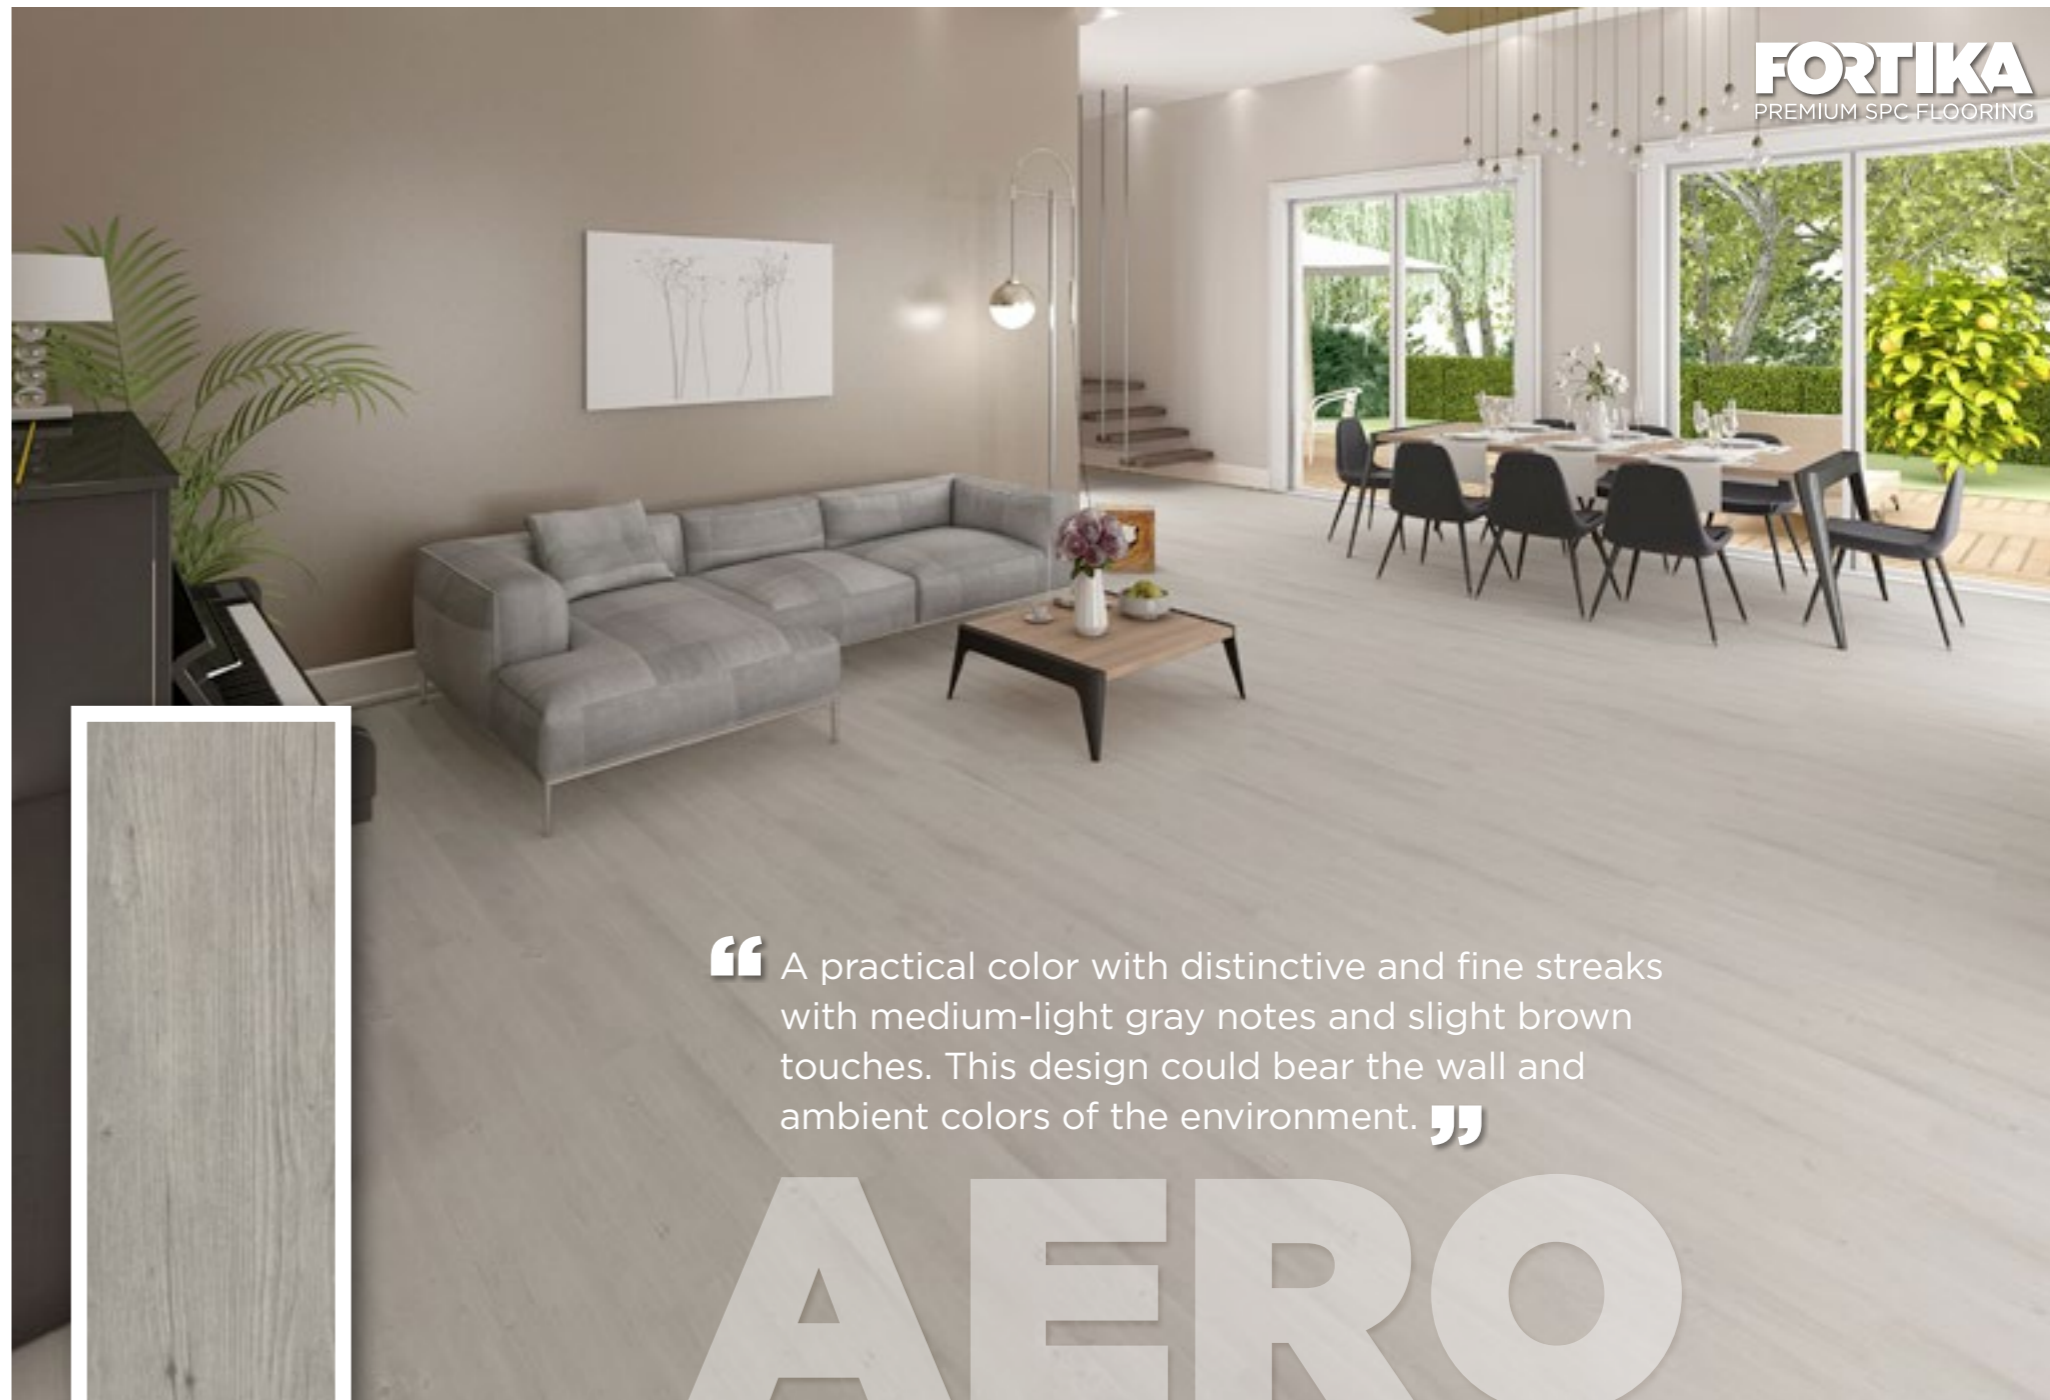

“ An innovative floor with little knots and streaks in medium shades. A modern design that consolidates the space with wooden naturalness as it does not contain any saturated colors. ”

NATURA

“ A noble floor with slight and thick knots, distinctive and thin streaks, between medium and dark shades. An option that ensures homogenous dispersion in brown and gray shades that emphasizes the naturalness of wood. ”

ARBARO

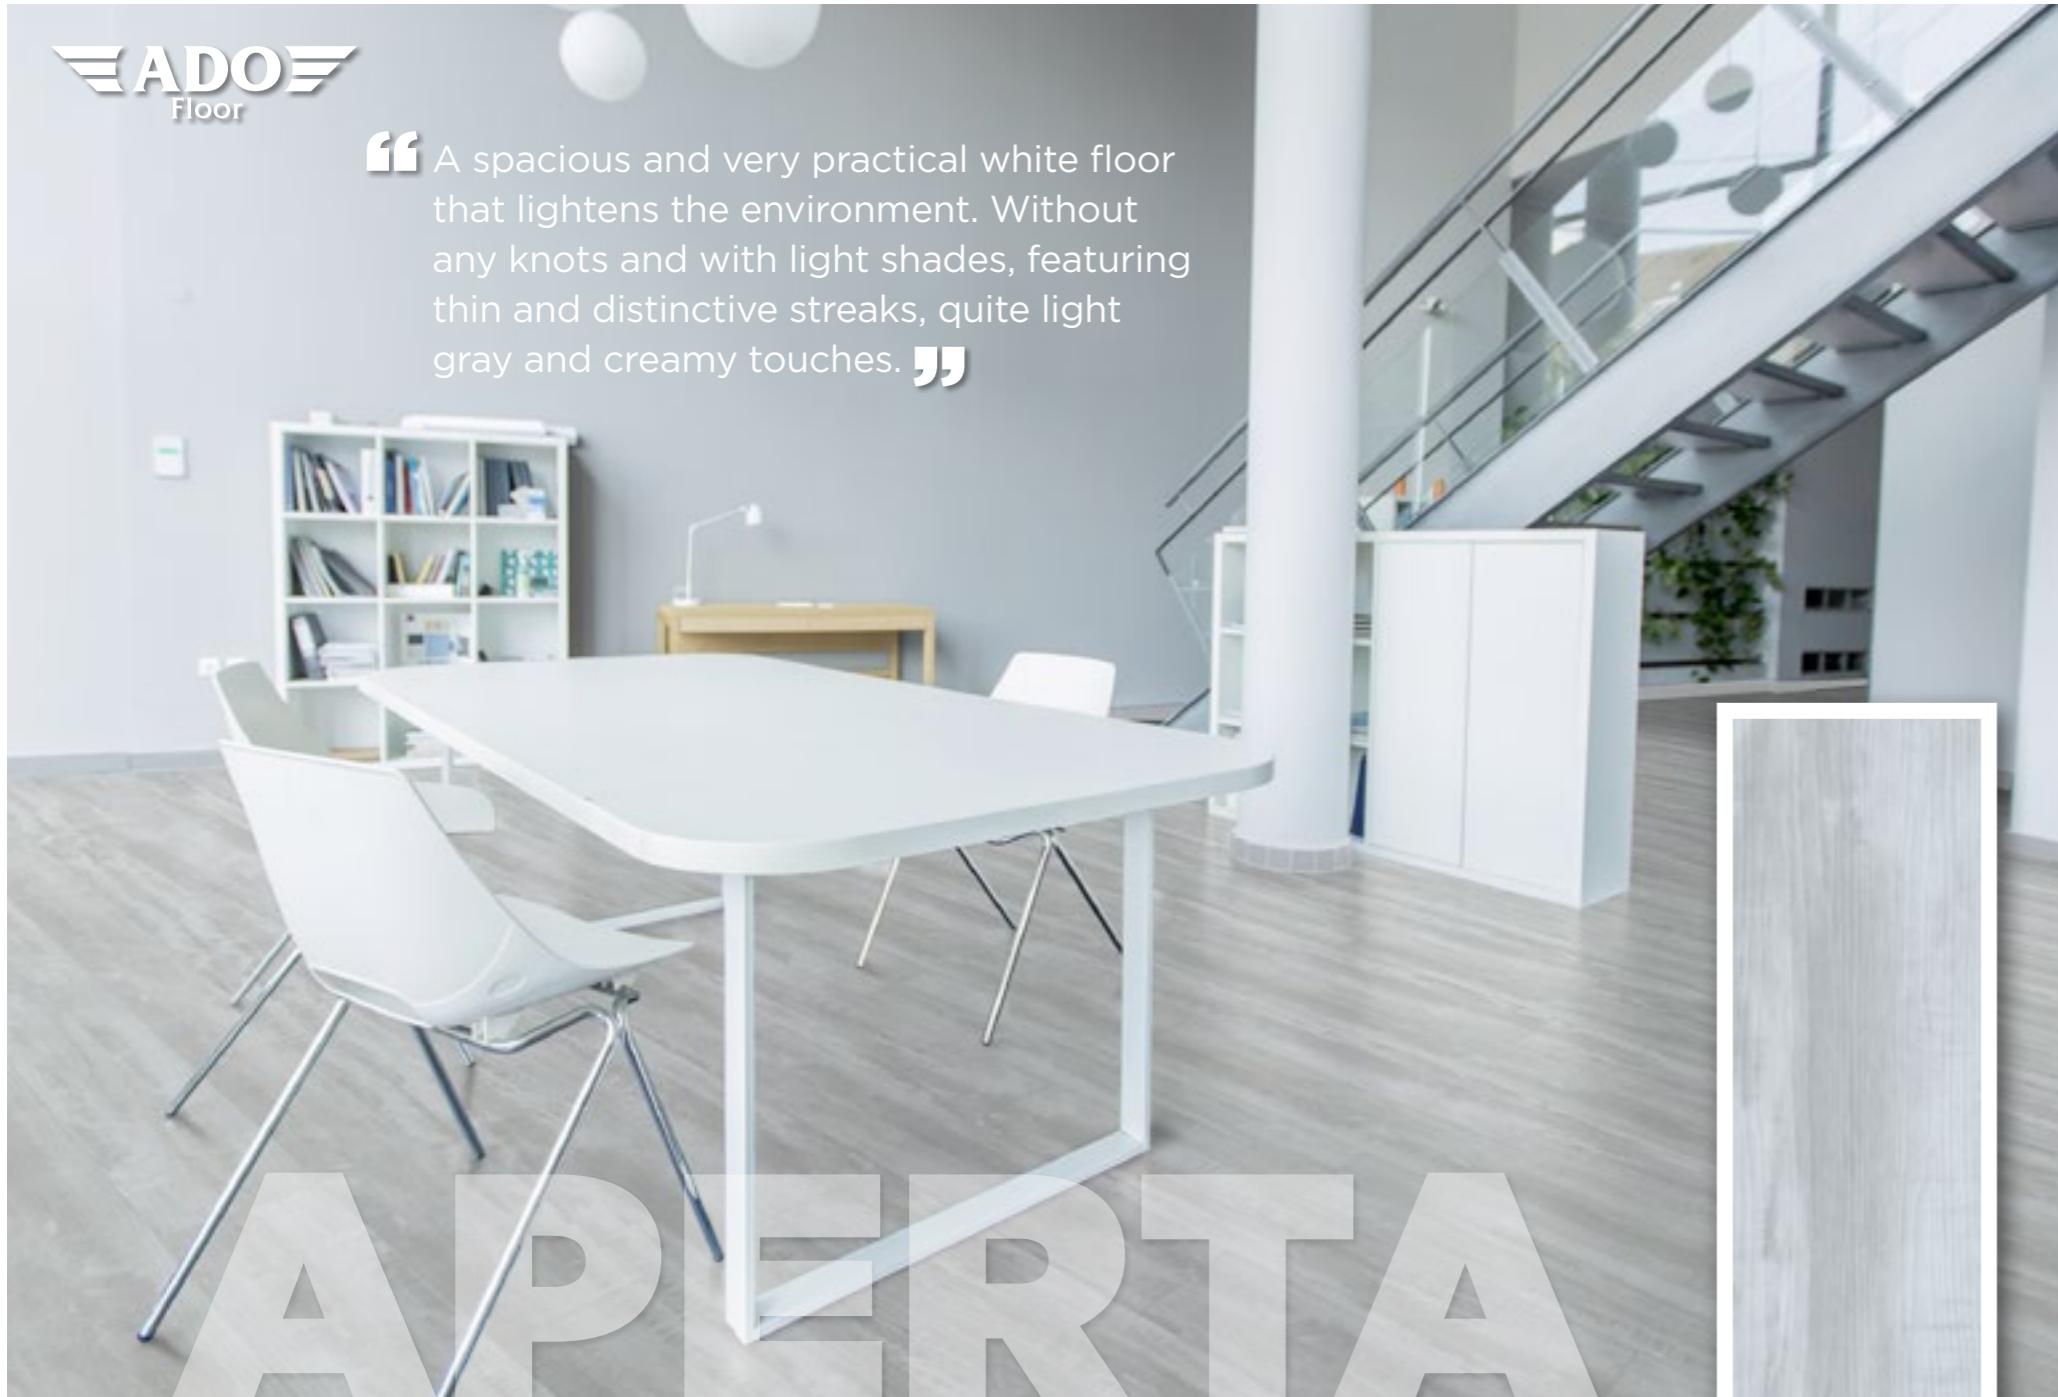

“ A practical color with distinctive and fine streaks with medium-light gray notes and slight brown touches. This design could bear the wall and ambient colors of the environment. ”

AERO

“ A spacious and very practical white floor that lightens the environment. Without any knots and with light shades, featuring thin and distinctive streaks, quite light gray and creamy touches. ”

APERTA

The world's easiest flooring installation system

Tried and tested over the last years by the world's leading global flooring manufacturers, no other one piece drop-lock solution has undergone such breadth of testing to offer a superior installation system across all types of flooring.
